1. MISSION - 6017 arrived at HTA on 26 July at 0958.
2. The quality of the photography is fair to good. While scattered cloud cover was encountered, most target areas were free of clouds. The firing sequence of camera 9 is normal except the counter is offset five digits. Photographs with No's. 7 and 8 appear to the right of the flight line and photographs with No's. 2 and 3 appear to the left.
3. This preliminary report will cover items of military significance in response to requirements levied by the intelligence community.

A. SUMMARY:

Coverage was obtained of 11 operational, 4 serviceable, and 7 abandoned airfields with a total of 385 FAGOT/FRESCO, 2 COACH/CRATE, 2 CAB, and 3 unidentified liaison type aircraft. Shipping appeared normal with naval vessels restricted to small patrol and coastal types. Motor vehicle traffic appeared above normal along major supply routes. A 105 military truck convoy was noted near Hung-lu moving southward along the Fuchow-Amoy road. The number of motor vehicles and artillery pieces was lower or completely absent in most of the military areas in which such equipment had been observed [redacted]. Moreover, preliminary analysis of photography indicates that there has been a significant increase in the number of occupied artillery positions on Amoy Island and the Lien-ho area.

* Purpose of this supplement is to confirm or change numbers and add textual information to ODE 6017 which was reported from the field.
